Mary – sorry this took so long – I wrestled with it some – see if this hits the mark with you. I can make more changes as needed. I was careful in talking about elevation because I am checking to make sure we alerted staff in OW (similar to what Leif did in OGC). If we have not – I asked Tom to reach out first thing tomorrow to ensure it is done before we send this forward. You will note that this message contemplates being sent after Monday.

Finally in the last paragraph – I indicate that you sent the comments to David and Matt last week. I looked and don't believe I have a copy of that email so want you to look specifically at how I handled that reference and potentially insert the date.

*Thanks

Matt and David,

Ex. 5 Deliberative Process (DP)

Thanks
Trey

Heather and Jessica –

Attached is a proposed addition to the 404 Assumption Rule. After you have had a chance to review, Kerri Barsh and I would like to discuss the possibility of adding this section to the rule in order to build upon the successes from the Lake Belt approach. Thank you in advance for your consideration. – Ernie
